Get help with Cornerstone where
you need it most.

- Cornerstone administration
- Premier Cornerstone administration
- Optimization
- Release management
- User Support

Sometimes you just can't do it all. That's when DXC Technology can help. Our Cornerstone-certified Managed Services experts provide a little — or a lot of — extra help when you need it most, from simplifying daily tasks and increasing user adoption to guiding talent management strategies and integrating new Cornerstone features. We're here to assist you with your Cornerstone system so that you can focus your resources on strategic initiatives and concentrate on what drives your business.

Cornerstone administration

Need help with the daily tasks, maintenance and upkeep of Cornerstone? With our standard administration support, you'll be in the driver's seat, identifying tasks you want your DXC administrator to complete.

- Import and manage a large number of administration data stacks during implementation
- Augment your internal Cornerstone administration when you are short-staffed or need resources to go live

Premier Cornerstone administration

Want a unified talent management solutions expert to provide insight on how you can get the most out of Cornerstone to meet your strategic talent objectives?

Our senior administrators help solve complicated everyday problems and assist with tactical projects and initiatives.

- Independent, strategic insight into Cornerstone features, releases and best practices
- Expert management of your Cornerstone platform for long-range support and direction
- A comprehensive understanding of the needs, challenges and interrelations of global companies that rely on Cornerstone

Optimization

Are you confident that your users are consistently having great experiences across the entire Cornerstone platform? Let our optimization experts show you how to get the most out of Cornerstone.

- Basic optimization — Combines expert consulting with administration hours to implement recommendations. Ideal for organizations that have been live with one or two Cornerstone clouds for 6 to 18 months
- Enhanced optimization — During this consultative engagement, our experts examine how your use of Cornerstone supports the processes and workflows related to your talent management strategy

Release management

Does release management seem like a full-time job?
Transfer the burden to us.

Your senior DXC administrator will manage four quarterly Cornerstone releases for you. Enjoy the confidence of fully leveraging the enhancements that are part of every release.

User support

Need someone to solve your users' issues? DXC will answer the call.

Our user solution integrates with Cornerstone and is easily customized for multiple languages, global time zones and interaction type (phone or ticket).

We offer two tiers of support: one for just the Cornerstone platform and one that also includes third-party software — such as the plug-and-play apps in our DXC suite of cloud-based HCM solutions.

We support long-term and short-term needs such as during initial rollout or a peak season for system demand — when professional certifications are due, when a regulation change requires retraining or during a round of layoffs.

Why DXC?

- **Cornerstone partnership.** DXC is a strategic Cornerstone partner.
- **Proven expertise and experience.** DXC's Cornerstone team has extensive HR/learning experience.
- **Global resources.** DXC's Cornerstone practice supports clients across multiple regions, time zones and languages.
- **End-to-end services.** DXC supports Cornerstone clients through the entire product life cycle — from implementation through optimization, user experience and business consulting services.
- **Transformation.** DXC provides ongoing strategic support to ensure you gain maximum benefit from your talent management system.

About DXC Technology
